# TECHNICAL SPECIFICATIONS

| PHYSICAL-CHEMICAL PROPERTIES                       | STANDARD TEST   | REQUIRED VALUE          | AVERAGE VALUE                                      |
|----------------------------------------------------|-----------------|-------------------------|----------------------------------------------------|
| Thickness                                          | EN ISO 10545-2  | ±5%                     | Conformed                                          |
| Water Absorbtion                                   | EN ISO 10545-3  | ≤ 0.5%                  | 0.03%                                              |
| Breaking Strength                                  | EN ISO 10545-4  | ≥ 1300 N                | 3716 N                                             |
| Modulus of Rupture                                 | EN ISO 10545-4  | ≥ 35 MPa                | 41 MPa                                             |
| Surface Quality                                    | EN ISO 10545-2  | Minimum 95% defect free | Conformed                                          |
| Straightness of Sides                              | EN ISO 10545-2  | ±0.5%                   | Conformed                                          |
| Rectangularity                                     | EN ISO 10545-2  | ±0.5%                   | Conformed                                          |
| Frost Resistance                                   | EN ISO 10545-12 | Resistant               | Resistant                                          |
| Crazing Resistance                                 | EN ISO 10545-11 | Resistant               | Resistant                                          |
| Thermal Shock Resistance                           | EN ISO 10545-9  | Resistant               | Resistant                                          |
| Resistance to Stains                               | EN ISO 10545-14 | Min. Class 3            | Class 5                                            |
| Chemical Resistance:<br>Cleaning Products          | EN ISO 10545-13 | Min. Class B            | Class A                                            |
| Chemical Resistance:<br>Swimming Pool Salts        | EN ISO 10545-13 | Min. Class B            | Class A                                            |
| Chemical Resistance:<br>Low Concentration Acids    | EN ISO 10545-13 | Declared value          | Class LA                                           |
| Chemical Resistance:<br>Low Concentration Alkalis  | EN ISO 10545-13 | Declared value          | Class LA                                           |
| Chemical Resistance:<br>High Concentration Acids   | EN ISO 10545-13 | Declared value          | Class HA                                           |
| Chemical Resistance:<br>High Concentration Alkalis | EN ISO 10545-13 | Declared value          | Class HA                                           |
| Resistance to Surface<br>Abrasion                  | EN ISO 10545-7  | Declared value          | Class 4 / 6000 cycles                              |
| Linear Thermal Expansion                           | EN ISO 10545-8  | Declared value          | $6.0 \times 10^{-6} \text{ }^{\circ}\text{C}^{-1}$ |
| Moisture Expansion                                 | EN ISO 10545-10 | Declared value          | < 0.01%                                            |
| Impact Resistance                                  | EN ISO 10545-5  | Declared value          | 0.85                                               |
| Lead Release                                       | EN ISO 10545-15 | Declared value          | < 0.02 mg/dm <sup>2</sup>                          |
| Cadmium Release                                    | EN ISO 10545-15 | Declared value          | < 0.002 mg/dm <sup>2</sup>                         |
| Anti-Slip Properties                               | DIN EN 16165    | R9                      | R9                                                 |
| Reaction to Fire                                   | EN 13501        | Class A1 / A1FL         | Conformed                                          |

The mentioned information stems from periodical tests made with a real product from the manufacturing process.  
Data is updated and accurated according to our loyal knowledge and wisdom.  
This technical data sheet and the product properties can be changed without prior notice.  
The users, suppliers and distributors should check that they possess the most recent technical data sheets.
